

RESIDENTIAL REVERSE OSMOSIS SYSTEMS

- WALL HANG OR UNDER COUNTER MOUNTING
- CLEAR, GREAT TASTING WATER FOR DRINKING, ICE MAKING AND COOKING
- PROUDLY MADE IN THE USA
- PAYS FOR ITSELF AND HELPS THE ENVIRONMENT BY ELIMINATING BOTTLED WATER
- SUPER EFFICIENT REDUCTION OF WASTE WATER
- 100% TESTED AND SANITIZED BEFORE SHIPPING

ALL SYSTEMS ARE COMPLETE WITH TESTED UNIT, STORAGE TANK, FAUCET, INSTALLATION FITTINGS, TUBING AND INSTALLATION INSTRUCTIONS.

MODEL DRO-100 WATER SAVER

THE VERY FIRST HOME SYSTEM PROVIDING 50% RECOVERY WITH 1 GALLON PRODUCT TO 1 GALLON DRAIN. INTRODUCED TO THE MARKET IN 1997. HUNDREDS SOLD. OFTEN COPIED BUT NEVER DUPLICATED.

DAILY WATER PRODUCTION: UP TO 100 GALLONS
WATER EFFICIENCY: 50%. 1GAL. PRODUCT TO 1GAL. DRAIN
UNIT SIZE: 15" W x 16"H x 5-1/2"D. TANK 11" Di x 14" H. 1.9 GAL.
STAGES: 2 PRE + RO + AC POST

MODEL DRO-100-HE PLUS

A STEP UP FROM THE DRO-100 UNIT. CUSTOM FRAME FOR EASE OF INSTALL & SERVICE. ALKALINITY AND ANTI-OXIDANT MOLECULAR HYDROGEN ADDED FOR HEALTH BOOST.

DAILY WATER PRODUCTION: UP TO 100 GALLONS
WATER EFFICIENCY: 75%. 1GAL. PRODUCT TO 1/3GAL. DRAIN
UNIT SIZE: 16" W x 20"H x 8"D. TANK 11" Di x 14" H. 1.9 GAL.
STAGES: 2 PRE + RO + ALKALINITY / HYDROGEN + AC POST

NATURE'S BALANCE WATER SAVER

A STEP UP FROM THE HE PLUS UNIT. PRESSURE GAUGE TO SHOW PRE-FILTER CONDITION AND TDS METER TO SHOW MEMBRANE CONDITION. ALKALINITY AND ANTI-OXIDANT MOLECULAR HYDROGEN ADDED FOR HEALTH BOOST.

DAILY WATER PRODUCTION: UP TO 100 GALLONS
WATER EFFICIENCY: 50%. 1GAL. PRODUCT TO 1 GAL. DRAIN
UNIT SIZE: 16" W x 17"H x 6"D. TANK 11" Di x 14" H. 1.9 GAL.
STAGES: 3 PRE + RO + CO2 MEDIA + ALKALINITY/HYDROGEN +EC POST

RESIDENTIAL REVERSE OSMOSIS

AUG 2022

MODEL NUMBER	NO. OF STAGES	DESCRIPTION	LIST PRICE
DRO-36	4	2 Pre-filters + 1 in-line post filter	\$554.00
DRO-100 Water Saver	4	2 Pre-filters + 1 in-line post filter	\$632.00
DRO-100-HE-PLUS	9	Pre-treat with 5 micron, KDF, Enhanced Carbon Post treat adjustable pH feature yielding magnesium, trace calcium (10:1 ratio) and molecular hydrogen. High efficiency 3:1 product/drain ratio.	\$995.00
Natures Balanced	9	Pre-treat with 5 micron, KDF, Enhanced Carbon, neodymium magnetic Field. Post treat cation resin, adjustable pH feature yielding magnesium, trace calcium (10:1 ratio) and molecular hydrogen, and activated carbon.	\$1,200.00
Structured Water (SWS-100)	10	Pre-treat with 5 micron, KDF, Enhanced Carbon, neodymium magnetic Field. Post treat cation resin, hematite/crystals, and activated carbon. Structured water cell with vortexes. High efficiency 3:1 product/drain ratio.	\$1,495.00
Travel RO	9	Pre-treat with 5 micron, KDF, Enhanced Carbon Post treat cation resin, crystals/Iodestone, UV, and adjustable pH feature yielding magnesium, molecular hydrogen, and activated carbon.	\$795.00

DRO-36. 36 GPD at 20% recovery. 3.2 Gallon tank, long reach faucet, EZ adapter, ¼” tubing and plastic drain clamp.

DRO-100. 100 GPD product at 50% recovery. Drain flush valve, 3.2 Gallon tank, long reach faucet, EZ adapter, ¼” tubing and plastic drain clamp.

DRO-100-HE-PLUS. 100 GPD product at 75% recovery. Drain flush valve, 3.2 Gallon tank, long reach faucet, EZ adapter, ¼” tubing and plastic drain clamp.

Natures Balanced. 100 GPD product at 50% recovery. Pressure gauge to show pre-filter condition, electronic lighted display to advise filter change. Drain Flush Valve, 3.2 Gallon tank, long reach faucet, EZ adapter, ¼” tubing and plastic drain clamp.

Structured Water. 100 GPD product at 75% recovery. Drain Flush Valve, 3.2 Gallon tank, long reach faucet, EZ adapter, ¼” tubing and plastic drain clamp.

Travel RO. 100 GPD product at 50% recovery. Drain flush valve, faucet adapter.

OPTIONS

UPGRADES

PRESSURE BOOSTER PUMP	\$260.00	3/8” TANK / FAUCET TUBING	\$8.00
70PSI PRESSURE REGULATOR	\$33.83	DELIVERY PUMP	\$239.00
UV LIGHT ON OUTLET	\$135.00	STRUCTURED WATER CELL	\$495.00

Add minerals / adjust pH Post RO. Calcium / magnesium cartridge in clear filter housing with blend valve, bracket and wrench \$75.00

STRUCTURED WATER UNDER COUNTER R.O. SYSTEM

ENJOY SAFE AND HEALTH ENHANCING
DRINKING WATER WITH THE DIME

**MODEL SWS-100* R.O. UNIT
FEATURING THE DIME EXCLUSIVE**

STRUCTURED WATER CELL

FEATURES

1. 100 gallons daily of crystal clear, great tasting water with 97% of dissolved solids and 99%+ micro biology removed.
2. 75% recovery. 3 gallons treated water to 1 gallon to drain.
3. Special pump for rapid water production and higher water quality at the faucet
4. Measures 16"Wx20"Hx5-1/2"D. Fits under 99% kitchen counters
5. Systems are complete
 - 100% tested
 - 3.2 gal. 9"D.x14"H storage tank
 - Full flow faucet
 - All installation tubing and fittings
 - Complete instructions

What is Structured Water?

Recently a laboratory at the University of Washington released a report on a phase of water that has a defined structure and included information on how it is obtained. The experiments were conducted by numerous scientists and repeated over a period of years. The resulting water **has a higher density, is more viscous and has a pH slightly higher** than unstructured water. The individual water molecules cluster in a hexagonal pattern with these clusters stacked one on top of the other in chains. The longer the chain and the more of them results in more structured water. Intuitively, because of its greater density, a given volume of structured water will contain a higher number of hydrating water molecules than an equal volume of regular water.

Treatment Steps

- Initial filtration to 5 microns. Primarily to increase the functional life of the membrane
- Custom blend media filter to remove chlorine, reduce heavy metals, remove chloramines and because one medium is a biocide, bacteria reduction is also accomplished.
- Special 100 GPD reverse osmosis membrane to remove remaining heavy metals, reduce dissolved analytes by 97% and because of membrane porosity of 0.002 micron or less, residual bacteria, viruses and cysts are reduced by 99% or more.
- Multiple Neodymium magnetic fields encircle the water to replicate the action of natural stream water passing through the Earth's magnetic flux lines.
- Cation polishing to further lower total dissolved solids to near zero TDS.
- A custom cartridge containing hematite and crystals to restore nature's frequencies.
- **Structured Water Cell** with vortices. Utilizing super hydrophilic surfaces and induced infrared energy (consuming 1-2 watt power) along with titanium dioxide infrared reflective surfaces most of the water is structured just before delivery to the faucet.

* PATENT PEND.

FOR MORE INFORMATION ON STRUCTURED WATER SEE OUR WHITE PAPER

Aquafer Water Source

Patented Water Systems Engineered For Today's Environment

Treats Water Without Exposing You or the Environment to Salt or Chemicals

No Water Waste

- No Chemicals or Salt Needed to Operate
- No Polluting Chemicals or Salt Discharged to Drain
- No Moving Parts, No Electricity Needed = No Maintenance
- Provides Safer Healthier Water At Every Faucet In Your Home
- Improves the Taste, Eliminates Odors, Chlorine, Reduces Chloramines
- Reduces Lead and Other Heavy Materials in Your Water
- Eliminates the Hard Water Effects of Scale
- Extends the Service Life of Appliances
- Improves Plant Growth by Lowering Water Surface Tension
- Soaps and Detergents are More Effective
- Prevents Bathtub Ring
- Can be Engineered to Accommodate up to 80 gpm Flow Rates

A World of Applications:

Landscaping and Golf Courses

Improves soil percolation and better root propagation

Homes

Reduces hard water scale in hot water heaters, dish and clothes washers, Eliminates Chlorine in your entire home, better tasting and safer water to drink

Restaurants

Improves icemakers, longer life for coffee makers, better drinking water

Hospitals

Kitchen maintenance is reduced, better protection for steam tables, auto-claves, laundry equipment, Specialty Applications-Solar Equipment, and more!

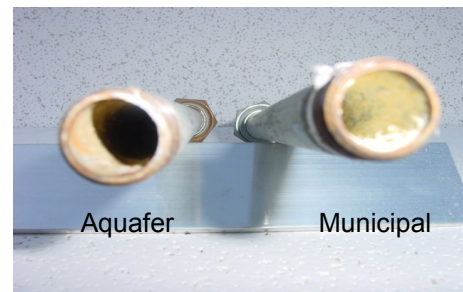

How the Aquafer Works

Through a complex distribution system, water flows through the Aquafer in an upflow direction. Initially the water flows downward through the distributor and the patented ESF where the water passes through a spring loaded chamber creating a slight pressure drop. This pressure drop initiates the formation of calcium hardness crystals. These crystals pass through a catalytic surface which greatly multiplies the number of crystals. It is the last two steps that set our patented process apart from similar products. The multitude of calcium crystals pass through a strong magnetic field which serves to hold the crystals in a suspended form for 48 to 72 hours. This entire process binds calcium (hardness) particles to each other rather than to your plumbing fixtures and appliances. Your water is then filtered through Kinetic Degradation Fluxion (KDF). The KDF redox process works by exchanging electrons with contaminants. This give and take process converts many contaminants into harmless components. Chlorine, heavy metals such as lead, mercury, and chromium are removed as well.
